Subject: Evaluation of Reclamation Surety, Geneva Rock Products, Inc., Point of Mountain (South Hansen) Quarry, M/035/0026, Salt Lake County, Utah

Dear Mr. Clyde:

The last reclamation cost estimate for the Point of Mountain (So Hansen) mine was completed in 2009 and escalated to 2014 with a bond escalation date of September 1, 2014, so the reclamation surety amount is now due for review and adjustment. The Division may adjust the amount of reclamation surety as the result of a periodic review taking into account inflation/deflation based on an acceptable cost index (R647-4-113.6).

To properly calculate the reclamation bond the Large Mine Operation Plan (LMO) needs to be up to date to ensure it is adequate and reflects the current operating conditions. Any necessary changes should be addressed by submitting an amendment to the LMO using form MR-REV (LMO).

In addition the Division has developed worksheets to assist both the Division and mine operators to calculate the reclamation cost using standard unit costs. Please complete the Divisions bond forms and return a copy to the Division for review. Once the forms have been reviewed, the Division will ask that you adjust the amount of surety to reflect the current reclamation cost estimate. **Please submit the reclamation cost estimate as an amendment to the Notice of Intention to Commence Large Mining Operations (LMO) by November 2, 2015.**

Please contact Leslie Heppler at 801-538-5257 for the LMO update, Wayne Western at 801-538-5263 for the bond update, or me at 801-538-5261 if you have questions regarding this letter. In reply please refer to file number M/035/0026.

Sincerely,

Paul B. Baker
Mining Program Manager
